LaSalle LOGIPORT REIT Awarded “Green Star” Status by GRESB Real Estate Assessment

LaSalle LOGIPORT REIT (“LLR”) announces that it has been awarded Green Star status (4-star rating) by the 2018 Global Real Estate Sustainability Benchmark (“GRESB”) Real Estate Assessment. The award recognizes LLR for its outstanding performance in areas related to Environmental, Social, and Governance (“ESG”) matters.

1. About GRESB and LLR’s ranking

GRESB is an industry-driven organization which assesses the sustainability performance of real estate assets, and its associated asset managers, around the world.

GRESB Real Estate Assessment participants receive comparative business intelligence on where they stand against their peers, with a roadmap providing action items they can take to improve upon their ESG performance. Concurrently, institutional investors use the ESG data and GRESB’s analytical tools to improve the sustainability performance of their respective investment portfolios, engage with investment managers, and prepare for increasingly rigorous ESG obligations.

This year, 903 property companies, REITs, funds, and developers participated in the real estate assessment, representing more than \$3.6 trillion in gross asset value. In its first submission, LLR achieved Green Star status.

For more information about the survey, please visit the GRESB website:

<https://gresb.com/2018-real-estate-results/>

2. LaSalle's Commitment to Sustainability

As an entire organization, LaSalle submitted fifteen (15) real estate assessment submissions (via its various private equity fund vehicles and public REIT vehicles globally), of which all (15) achieved Green Stars. Eight GRESB Green Stars distributed across all regions is a noteworthy achievement in what is now LaSalle's tenth year of commitment as a firm to sustainability.

LaSalle believes that Environmental, Social Responsibility and Corporate Governance (ESG) factors can have an impact on investment performance and should be considered when evaluating real estate securities, real estate related investments, and managing real estate assets.

3. LLR's Future Initiatives

As a member of LaSalle, a leading global investment management company, LLR supports United Nations Principles for Responsible Investment ("PRI") and believes that ESG best practices enhance the investment performance of our assets. LLR will continue to strive for maximum contributions through formal programs that are conducive toward environmental stewardship, social responsibility, and a pursuit for ethical business governance.
