1. For details about Kansai 1 Property TMK, please refer to “3.Details of the Subject Acquisition / (1) Overview of the Preferred Shares” below.
2. The Preferred Shares are issued by the Subject TMK that will develop "LOGIPORT Kansai 1" (tentative name). Along with the LLR's acquisition of the 1<sup>st</sup> Preferred Shares, LLR will enter into an agreement with the Subject TMK concerning the granting of a preferential negotiation right (hereinafter referred to as the "Preferential Negotiation Right") through a preferential negotiation right agreement (hereinafter referred to as the "Preferential Negotiation Rights Agreement") on the same date as the execution of the underwriting agreement for the 1<sup>st</sup> Preferred Shares. Details of this Preferential Negotiation Right is as described in the section "3. Details of the Subject Acquisition / (1) Overview of the Preferred Shares / Other" below. Also, in relation to the issuance of the 2<sup>nd</sup> Preferred Shares (Scheduled to be issued in late November 2021 as of the date of this press release but this issuance has not been concluded yet. If it is to be issued, the timing may differ from the above.), it will be set forth in the first underwriting agreement for the Preferred Shares that LLR and the Subject TMK will negotiate the issuance amount (which is not to exceed the above noted upper limit), and that LLR is not obliged to subscribe for the 2<sup>nd</sup> Preferred Shares. The same applies hereinafter.
3. If the 2<sup>nd</sup> Preferred Shares will be issued, LLR will negotiate with the Subject TMK regarding the underwriting and the issuance amount of the 2<sup>nd</sup> Preferred Shares (the amount noted above is expected to be the upper limit as of the date of this press release) which is subject to change. The same applies hereinafter.
4. Details about the Subject Property are described in “3. Details of the Subject Acquisition / (2) Subject Property Summary” below.

2. Reasons for acquisition

The Subject Property is scheduled to be developed as a “large scale, high specification” logistics facility located in a “suitable logistics site” in the Osaka Area (Note 1), and is to be a property that meets the criteria of "Prime Logistics" (Note 2) set forth by LLR. In connection with the Subject Acquisition, LLR will secure a Preferential Negotiation Right for the Subject Property which is expected to generate stable earnings over the medium to long term. In addition, by executing this acquisition as part of LLR's Excess Returns Strategy (Note 3), this acquisition creates opportunities to receive additional dividends (Note 4) through the Preferred Shares. The Subject Acquisition has been carefully decided on based on the information above.

Since the Subject Property is currently land with plans to be developed in the future, the LLR has decided to indirectly invest in this property by acquiring Preferred Shares with its own funds. If LLR were to acquire the Subject Property directly by raising funds through the issuance of new investment units and debt, LLR will face greater risks which may lead to the dilution of DPU and NAV per unit. Accordingly, LLR has decided to acquire the Preferred Shares with its own funds while securing an acquisition opportunity for this property in the future by acquiring a Preferential Negotiation Right. The Subject Property is currently in the planning stage of development and the schedule may be delayed, modified or cancelled. In addition, we expect to earn revenues from this Subject Property beginning in 2023 (planned), which is the post-completion timing of this property. In order to reduce the risks incurred in connection with the development plan, LLR shall negotiate the preconditions for the issuance of the 2<sup>nd</sup> Preferred Shares (hereinafter referred to as the "**Additional Capital Contribution**") given that the development plan has progressed as anticipated.

Going forward, the Subject TMK's asset manager will be LaSalle Investment Management K.K. (the “**Sponsor**”). The Sponsor will concentrate on development and leasing activities to monetize

the Subject Property. Based upon the prevailing occupancy rate (Note 5) situation, LLR will consider the appropriate timing as to when to proceed with acquiring the Subject Property directly.

Note :

1. "Osaka Area" is defined as the area that is within a 45km radius from JR Osaka station.
2. LLR has defined "prime logistics" as those properties, which are "large-scale, high specification" and located in "suitable logistics sites."
3. "Excess Returns Strategy" refers to LLR's unique strategy aimed at obtaining excess returns from Excess Returns Investments. "Excess Returns Investments" are not a simple acquisition of a stabilized property, but rather are investments in a property prior to stable operations where leasing activities have not been completed, or where a targeted property has room for redevelopment or building expansion. An investment strategy that creates added value through asset management by LLR or its Sponsor, whereby the aim is to procure "excess returns." This includes, for example, profits obtained by LLR earning dividends on the preferred investment securities, or by leasing up properties prior to stable operation and increasing their real estate value.
4. Dividends from the Preferred Shares are anticipated to be generated once the Subject Property's occupancy rate gets above a certain amount after completion and when a gain on sale of the TMK's Preferred Shares are generated.
5. Currently, an agreement has not been executed with a tenant.
